

## CARDIOGRAMKIDS™: ECG TELEMEDICINE AND PEDIATRIC OVER-READ SERVICE

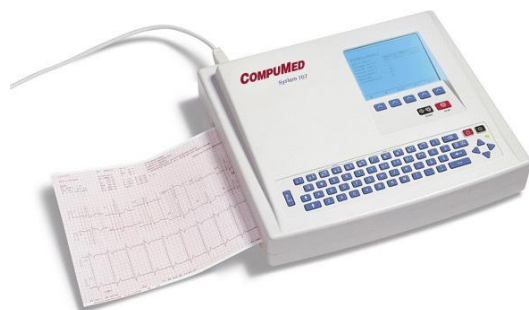

CompuMed's CardioGram Systems provide accurate, timely and cost-effective electrocardiograms and on-line interpretive services that support your Pediatric Cardiology assessment needs from any location

- Over-reads performed by leading Pediatric Cardiologists from the University of Miami's Miller School of Medicine
- ECG archiving, EMR and serial comparison capability available
- Reduce your liability and provide better care
- NEW Internet-ready system
- Centralized ECG Lab
- 24/7 Tech Support

The most comprehensive on-line ECG system available for the Pediatric setting

Performing electrocardiograms in your facility can be accurate, easy and cost effective.

CompuMed's CardioGram Systems are portable ECG systems that use a standard telephone line or the Internet to provide instantaneous 12-lead analysis, interpretation, long-term ECG archival and 24/7 cardiologist over-read services.

Proceed with confidence before prescribing stimulant medications for ADHD or psychotropic medications.

1

Capture ECGs right in your office with one of our ECG systems or use your own with our CompuGATE™ universal transmitter.

2

Perform a 12-lead ECG test and obtain computerized interpretation.

3

ECG is electronically transmitted to our on-duty Pediatric Cardiologists for over-reading.

4

Expert over-read interpretation is sent back to your office for best-in-class clinical care and accuracy. Data and reports are stored for your future recall and use, including for serial comparison studies.

## CARDIOGRAMKIDS™

CardioGramKids is ideally suited for:

- Sports physicals
- Evaluations before prescribing stimulant medications for ADHD
- Evaluations before prescribing psychotropic medications
- Follow-up exams to evaluate QT-prolongation issues
- Pediatricians' offices
- Child Psychiatrists' offices
- Clinical Research Organizations

ECG interpretation and Cardiologist over-read services decrease your risk and liability

The affordability and ease-of-use of the CardioGram Systems makes it easy to report accurate ECGs from any location.

The system's sophisticated interpretation software and on-line Cardiologist over-read services decrease your risk and liability.

### CARDIOGRAMKIDS™

#### KEY BENEFITS

##### *EASY*

Prepare your patient, and with the push of a button an ECG is acquired and transmitted over a standard telephone line or the Internet to our computer center for immediate analysis and archival. The patient data, ECG trace and interpretation print on a single page ready for the patient's chart.

##### *FAST*

ECG results are available in less than three minutes, and the over-read by a Pediatric Cardiologist is faxed back to you within 24 hours.

##### *AFFORDABLE*

CardioGram Systems are affordable for any facility and can be acquired using a purchase or rental pricing option. Technical support services and a comprehensive line of ECG supplies are available to keep your system up and running 24/7.

##### *PORTABLE*

CardioGram Systems are portable and can store ECGs in memory for later transmission. Our systems operate on standard AC power or with a self-contained rechargeable battery pack, making the unit transportable to any location.

CompuMed has been a provider of centralized ECG services for more than thirty years, providing equipment and services to hundreds of locations throughout the U.S.

**Call CompuMed today to bring the CardioGramKids System into your facility.**
